Firefly Credit Union® Named a Best-In-State Credit Union by Forbes

BURNSVILLE - Firefly Credit Union was named a Best-In-State credit union by Forbes magazine. Firefly was one of only five credit unions in Minnesota to be featured on the prestigious list of less than 200 credit unions nationwide.

The best banks and credit unions in every state were chosen based on an independent survey of more than 25,000 individuals across the nation. Each participant was asked to rank their financial institution on various criteria. The criteria included overall recommendation and satisfaction, as well as trust, financial advice, digital services, branch services, and terms and conditions.

“We are honored and humbled to be featured on this list,” said Dale Turner, President/CEO. “Each day, our employees strive to provide exceptional member service. This designation affirms that we are fulfilling our mission to guide our members toward lifelong financial well-being.”
